Weekly Report – June 26, 2026

Independence Day Holiday

Town Hall will be closed on Friday, July 3, in observance of Independence Day.

This year is especially significant as our nation celebrates the 250th anniversary of the signing of the Declaration of Independence. For two and a half centuries, Americans have enjoyed the freedoms and opportunities made possible by those who envisioned and built our nation. As we gather with family, friends, and neighbors this holiday weekend, we encourage everyone to take a moment to reflect on our country's history and the many individuals who have served and sacrificed to preserve the freedoms we enjoy today. We wish everyone a safe and happy Fourth of July as we celebrate this historic milestone in our nation's history.

Be Mindful of Fire Risks

As you celebrate the holiday weekend, please be mindful of the potential fire danger associated with fireworks and other outdoor activities. Even with the recent rainfall, dry grass, brush, fences, and other combustible materials can ignite quickly. Taking a few extra precautions can help prevent fires, protect property, and keep our community safe.

Keep Pets Safe During Fireworks

Please remember that many pets are frightened by fireworks. Take extra precautions to ensure your pets are safe and secure during the holiday weekend.

Wildlife at the Wastewater Treatment Plant

A killdeer has built a nest in the wastewater treatment plant area. Our Public Works staff has marked the nesting area so it can be protected from mowing operations. We are fortunate to live in a community where wildlife continues to thrive.

Stage 1 Voluntary Water Restrictions Remain in Effect

The Town remains under Stage 1 voluntary water restrictions through September 30 pursuant to the Town's Drought Contingency Plan. The goal of Stage 1 is to encourage voluntary conservation and raise awareness regarding potential drought conditions.

We know many residents will be topping off pools and enjoying outdoor activities during the holiday weekend, but please continue to use water wisely and irrigate conservatively. Water is our most valuable natural resource, and conservation helps ensure a reliable supply for our community.
